

Health Exhibition Report Guidelines

1. Introduction

- Briefly introduce the theme of the poster exhibition.
- Mention the date, venue, organizing department, and target audience.
- State the importance of the exhibition in the context of nursing education or public awareness.

Example:

The Department of Community Health Nursing organized a poster exhibition on [Theme] on [Date] at [Venue]. The exhibition aimed to educate the public and nursing students on key health issues and promote awareness through visual communication.

2. Objectives

2.1 General Objective

- To enhance public awareness and promote health education through student-led poster presentations.

2.2 Specific Objectives

- To provide nursing students with hands-on experience in health education.
- To communicate key health topics effectively through visual aids.
- To encourage interaction between nursing students and the community.
- To develop students' skills in communication, planning, and teamwork.

3. Planning and Execution

- Brief description of the preparatory meetings and planning timeline.
- Mention faculty guidance, student involvement, and resource arrangements.
- Include logistics like poster material preparation, printing, chart display, and setup.

Points to include:

- Planning committee formation
- Theme finalization
- Poster topic allocation to students
- Material preparation schedule
- Setup and execution details on the event day

4. Role of Nursing Students

- Active participation in selecting topics, designing posters, and preparing content
- Communicating with visitors/public during the exhibition
- Teamwork and collaboration in organizing and managing the event
- Applying theoretical knowledge into practical demonstration

5. Topics Covered Under the Poster Exhibition

List the key poster topics displayed. Categorize them if needed:

Examples:

Category 1: Maternal and Child Health

- Danger signs of pregnancy
- Exclusive breastfeeding
- Growth monitoring

Category 2: Non-Communicable Diseases

- Hypertension and lifestyle modification
- Diabetes mellitus: Prevention and control

Category 3: Public Health and Sanitation

- Safe water and sanitation
- Waste segregation and disposal

Category 4: Adolescent Health

- Menstrual hygiene
- Substance abuse among youth

6. Outcome of the Exhibition

- Number of students and visitors who attended
- Feedback received from faculty and public
- Improved confidence and communication skills among students
- Enhanced awareness among target audience
- Achievement of objectives

Optional: Include any photos, media coverage, or feedback quotes.
